FOREWORD

With the 2010 Census in full swing, legislative redistricting is just around the corner. Lawmakers will redraw lines for a variety of reasons: to reflect the changes in population, to entrench political majorities, and to provide underrepresented minorities with a voice. Before redistricting begins in earnest, we decided to bring together academics and state officials for a daylong symposium to examine the future of redistricting in America. This issue is the product of that symposium, which was entitled, appropriately enough, *Drawing Lines: The Future of Redistricting in America*.

Like the symposium, this issue is organized around three central questions. Is there a way to design an apolitical redistricting process? How will computers be used in the next round of redistricting? What is the future of the majority-minority district?

We would like to thank the Duke Law Program in Public Law, the American Constitution Society, and the Kenan Institute for Ethics at Duke University for their generous support of the symposium. We would also like to thank all of the participants in the *Duke Journal of Constitutional Law & Public Policy* symposium on redistricting:

- Micah Altman, Harvard University Institute for Quantitative Social Science;
- Bobby Bowers, South Carolina Budget and Control Board Office of Research and Statistics;
- Justin Buchler, Case Western Reserve University Political Science Department;
- Guy-Uriel Charles, Duke University School of Law;
• Adam B. Cox, University of Chicago Law School;
• Michael Crowell, University of North Carolina School of Government;
• Luis Fuentes-Rohwer, Indiana University Maurer School of Law;
• Heather Gerken, Yale Law School;
• Bill Gilkeson, North Carolina General Assembly Research Division;
• Steven F. Huefner, The Ohio State University Moritz College of Law;
• Melissa R. Michelson, Stanford University Center for Comparative Studies in Race and Ethnicity;
• Bob Phillips, Common Cause North Carolina;
• Jeff Reichert, writer and director of the film *Gerrymandering*; and
• Mark Salling, Cleveland State University Levin College of Urban Affairs.
